

Event Report 「Food Store Solutions Fair 2022」

The Osaka Business Partner City Council exhibited at the Food Store Solutions Fair 2022 in Osaka. To promote trade among Osaka's Business Partner Cities, we provided affiliated organizations from the Business Partner City network with a space at our BPC Council booth, where they introduced local food and beverages. In addition, we arranged business meetings with several major distributors and buyers to promote further economic exchanges between companies in their respective countries and Osaka.
